

# ADAM MÉZES

FRONTEND DEVELOPER

## ABOUT ME

I'm a passionate web developer with over 8 years of experience. I enjoy creating clean, responsive, and accessible websites while following best practices in code quality, SEO, and collaboration. Experienced in Agile workflows, version control, and API integration, I continuously learn new technologies to enhance my skills. As a freelancer, I take pride in delivering user-friendly, high-performance sites that achieve strong search rankings soon after launch.

## WORK EXPERIENCE

- Level Access (formerly UserWay) May 2022 – Present  
**Software Engineer**
  - Developed accessibility-focused web applications and projects, ensuring compliance with modern accessibility standards.
  - Contributed to the kickoff of UserWay Scanner and LABS projects; LABS later evolved into the company's core Accessibility Widget.
  - Collaborated in Agile/Scrum teams of 3–10 members, conducting code reviews, participates in daily meetings, and biweekly demos.

Skills: React, TypeScript, Angular, SASS, Vite, Vitest, Playwright, WCAG, WAI-ARIA, Accessibility, Rollup, Clean Code, Responsive Design, Git
- Includia Jan 2024 – Aug 2024  
**Senior Frontend Developer**
  - Collaborated with a startup to build accessibility-focused products, Accessibility Scanner and Platform, from scratch under tight deadlines.
  - Recruited directly for my programming and accessibility expertise.
  - Collaborated in Agile teams of 2–4 members, participates in daily meetings, sharing ideas, and driving development progress.

Skills: React, Next.js, TypeScript, Tailwind CSS, SASS, WCAG, WAI-ARIA, Chrome Extension, Git
- Freelancer Febr 2022 – Present  
**Senior Full Stack Developer**
  - Developed my portfolio website
  - Developed Behemke.hu, with implemented Google and token-based authentication and a custom appointment booking tool; achieving TOP 10 Google ranking with an 8% CTR through SEO optimization.

Skills: React, Next.js, TypeScript, Tailwind CSS, SASS, Node.js, Supabase
- Gastro Digital (formerly PQRS) Dec 2017 – Dec 2021  
**Full Stack Developer**
  - Redesigned websites built on a custom engine called Lokalap to improve SEO and modernize the look, completing the project in 9 months.
  - Developed a data collection algorithm using multiple APIs to gather information on 6 million restaurants worldwide.
  - Collaborated in Agile teams of 2–5 members and served as lead developer for the Lokalap project.

Skills: jQuery, JavaScript, Bootstrap5, LESS, PHP7, MySQL, phpMyAdmin, SEO, Responsive Design, Code Refactoring, API Integration, Sendinblue
